

BIG SKY COUNTER 4X2

RESORT EXTRUSIONS

PRODUCT CODE: BIGSKYC4X2

On frame On graphic

PRODUCT DESCRIPTION

Big Sky Counter is part of the Resort Extrusion family - aluminum frames for Silicone-Edge Graphics (SEG). Custom made on the premises, Big Sky Counter comes in varied sizes. Big Sky Counter accepts four individual custom fabric graphic, excluding top and bottom. Transversely, push corners of graphic into the channel found along the perimeter of the frame. Starting midway on the frame, going towards the corners, continue pushing in the straight edges of the graphic. Repeat three times. Place the frosted acrylic countertop on the frame last.

E. Dual Torx Key

BIG SKY COUNTER 4X2

RESORT EXTRUSIONS

PRODUCT CODE: BIGSKYC4X2

INSTRUCTIONS

(Big Sky Counter 2x2 shown below)

Step 1

Start by building both vertical sides.

Step 2

Take (1) 40" extrusion and (1) 22" extrusion and connect them. Lock the 22" extrusion by tightening the exposed Torx head with the supplied Torx key.

Step 3

Continue until you have (1) complete perimeter, as shown above. Repeat the same process so that you have (2) of these completed.

Step 4

Take (1) side and attach the remaining 22" extrusions.

Step 5

Once you have the remaining 22" extrusions locked in place (shown below), you are now ready to place the 2nd side that was completed in Step 3 on top.

Step 6

Tighten/lock the top and rotate the frame on to its vertical side (shown below). The frame is ready to have the graphics and acrylic counter installed.
